

Easily post your flush and matted albums online for your clients to review!

Features

- Always FREE setup
- Clients can view their albums from anywhere in the world
- Flawless integration with LabPrints software
- Sites are secured to disable downloading
- Choice to have password protection

Now your clients can review their albums from anywhere in the world. They will be able to view your proposed flush or matted album designs, and post comments under each page. Album Review accepts JPEG and TIFF images from any album design program including designs created with LabPrints.

Changes are easy because you can upload to the same album for additional review. Plus, you can customize the look of your storefronts- upload your logo and choose the color yourself. Our online album review service is accessible through our FREE ordering software, LP Digital Studio.

Unlimited album design hosting is available for a low monthly fee of \$9.99.
